Tuscan Night

A Flight Simulator mission idea
For the FSBreak mission design contest
by Faris Hassan

Location: Pisa and Elba island, Tuscany, Italy.

Time: About 1 hour

Category: Pilot for Hire

Skill level: Beginner

Mission description:

You have been hired to take a VIP from Pisa to Elba island, where he is to attend a party being held on a yacht. Take off from Luni Mil (LIQW) and go to Pisa (LIRP San Giusto) where he is waiting in a car. As you depart Pisa airport, have a look at the city, like the illuminated leaning tower of Pisa off to the left hand side. Fly along the tuscan coast to Elba Island. Unfortunately, your passenger is uncertain about the exact location of the yacht, so you must fly around the bays of the island to locate it. Once you have found the yacht (he will point it out when you are getting close), make a low pass over it, and they will signal you also. Then, land at the Elba island airport (LIRJ Marina Di Campo), so that he may hire a boat to go to the yacht.

The idea is to use the freeware Tuscany scenery for FSX by OZx

Which is really great scenery that has beautiful night lighting. As the scenery is quite big (900 MB), not everyone may want to use it, so the mission should work without also.
**Starting position:** Active runway at Luni Mil

**Starting time:** Dusk

**Weather:** Clear with light winds (to enjoy the starry night)

**Maps**

**Sarzana to Pisa**
Screenshots/Mission flow

Take off from Luni Mil and fly south along the coast. You can follow the autostrada all the way to Pisa.

Enjoy the lights of the scenery below.
Approaching Pisa

Land at San Giusto airport
Pick up your passenger, who should be waiting in a car at the ramp

Take off from San Giusto
Check out the city of Pisa and the leaning tower just after take-off

Set your nav radio to the ELB VOR on 114.70 and fly to Elba island
Fly around the bays to find the yacht

No, not there...
Not there either...

When you find the yacht, make a low pass over it
Maybe they could return the favour by shooting off some fireworks

Land at Marina Di Campo airport on the island, so your passenger can hire a boat.
